

CALL FOR PAPERS

ICWCA 2021
Nov 04-05, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCA 2021 : International Conference on Wood in Construction and Architecture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wood in Construction and Architecture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wood design
Parametric design and fabrication strategies
CNC and woodworking technology
Wood stereotomy and descriptive geometry
Wood joint systems
Flexible wood
Complex timber structures
Parametric timber engineering

Large-scale cross-laminated timber projects
Wood complex surface
Discretization of surface
History of representation in wood design
Optimization of wood architectures
Wood and geometry in the history
Wooden architectures and timber structures survey
