

CALL FOR PAPERS

ICQMMFA 2021
Nov 04-05, 2021
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQMMFA 2021 : International Conference on Quantum Mechanics, Mathematical Formulations and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Mechanics, Mathematical Formulations and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum mechanics	
Quantum physics	
Quantum theory	
Basic ideas of quantum mechanics	Attempts at a unified field theory
Single-particle systems	Philosophical implications
Multiple-particle systems	Applications
Time evolution	Electronics
Mathematical formulations	Cryptography
Mathematically equivalent	Quantum computing
formulations of quantum mechanics	Macroscale quantum effects
Interactions with other scientific	Quantum theory
theories	Free particle
Quantum mechanics and classical	Step potential
physics	Rectangular potential barrier
Copenhagen interpretation of	Particle in a box
quantum versus classical	Finite potential well
kinematics	
General relativity and quantum	
mechanics
