

CALL FOR PAPERS

ICSMPE 2021
Nov 08-09, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMPE 2021 : International Conference on Sustainable Manufacturing and Automation Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Manufacturing and Automation Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Design and manufacturing engineering

Challenges and developments in the manufacturing industry

Automation development

Materials for sustainable manufacturing

Concurrent engineering

Internet of things on the manufacturing floors

Agile manufacturing

Innovative production methods

Manufacturing technologies, production and control

Mechanical transmissions

Industrial design

Opportunities of additive manufacturing

Resources and sustainability

Design insights

Production engineering

Inter disciplinary aspects

Product and process engineering

Manufacturing process

Machine tool operation

Production management
