

# CALL FOR PAPERS

**ICAMME 2021**  
**Nov 08-09, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMME 2021 : International Conference on Advanced Metallurgical and Materials Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Metallurgical and Materials Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Scanning tunneling microscopy  
Atomic force microscopy  
Nanomaterials, nanoindentation  
Biomaterials  
Characterization and analysis of materials  
Physical and mechanical properties of materials  
Physical metallurgy  
Advanced materials  
Ceramics and polymers  
Biocompatible implant materials  
Magnet and superconductivity  
Functional materials, ceramic and composite  
Mechanical metallurgy, manufacture and texture

Casting technology  
Structure, properties, heat treatment of materials  
Metal processing  
Metals and alloys  
Alloy development  
Corrosion  
Coating  
Extractive metallurgy: hydro and pyro metallurgy  
Iron and steel making  
Mineral processing for advance materials  
Metallurgical fundamentals and techniques  
Nanotechnology  
New materials and performances
