

CALL FOR PAPERS

ICTMWC 2021
Nov 08-09, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTMWC 2021 : International Conference on Textile Materials for Wound Care is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Textile Materials for Wound Care. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced textiles for wound care
The use of textiles in particular aspects of wound care
Wound management and dressings
Testing dressings and wound management materials
Textile materials and structures for wound care products
Interactive dressings and their role in moist wound management
Bioactive dressings to promote wound healing
Advanced textiles for wound compression

Antimicrobial textiles dressings in managing wound infection
Novel textiles in managing burns and other chronic wounds
Types of advanced textile for wound care
Drug delivery dressings
The use of 'smart' textiles for wound care
Composite dressings for wound care
Textile-based scaffolds for tissue engineering
