

# CALL FOR PAPERS

**ICAACE 2021**  
**Nov 15-16, 2021**  
**Jeddah, Saudi Arabia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAACE 2021 : International Conference on Adsorption Analysis in Chemical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Adsorption Analysis in Chemical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Adsorption analysis

Kinetics of adsorption

Practical approaches of pure component adsorption equilibria

Pure component adsorption in microporous solids

Multicomponent adsorption equilibria

Heterogeneous adsorption equilibria

Measurement techniques

Gas adsorption analysis

Nanomechanical analysis of the adsorption of water vapor
