

# CALL FOR PAPERS

**ICTDNR 2021**  
**Nov 15-16, 2021**  
**Jeddah, Saudi Arabia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTDNR 2021 : International Conference on Technological Developments in Neurorehabilitation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Technological Developments in Neurorehabilitation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Instrumentation in rehabilitation  
Neurophysiologic and neuroimaging techniques  
Telerehabilitation: translation from experimental to clinical experiences  
Technical developments for deep brain stimulation  
Neurorehabilitation research methodologies  
Multidimensional strategies and endpoints in clinical trials  
Child Developmental disorders  
Pediatric TBI  
Case Management  
Therapeutic Recreation  
Therapies : Occupational, Physical and Walking Therapy  
Pediatric Assistive Technology  
Future of Pediatric Neurorehabilitation

Neurological balance exercises  
Physiotherapy Exercises for Spinal cord Injury  
Neurological Physiotherapy  
Vestibular Rehabilitation exercises  
Neural Repair  
Neurorehabilitation basic research  
Clinical research  
Neurorehabilitation research methodology  
Pharmacology in neurorehabilitation  
Explanatory models in neurorehabilitation  
Vocational rehabilitation  
Transitional problems in neurorehabilitation  
Neuro rehabilitation principles and practice
