

CALL FOR PAPERS

ICNDD 2021
Nov 18-19, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNDD 2021 : International Conference on Nanobiomaterials in Drug Delivery is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanobiomaterials in Drug Delivery. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanobiomaterials in drug delivery
Nanoformulations in drug delivery
Silica nanoparticles percutaneous penetration
Nanobiomaterials in drug delivery
Dendrimers in drug delivery
Lipid nanoparticles as non-viral vectors for siRNA delivery
Nanobiomaterials: novel nanoplatform for protein and peptide delivery
Current status and future prospects of nanobiomaterials in drug delivery
Magnetoanisotropic biodegradable nanocomposites for drug controlled release

Nanomaterials in drug delivery
Natural and synthetic polymers for drug delivery and targeting
Magnetically based nanocarriers in drug delivery
Drug delivery nanocarriers to cross the blood-brain barrier
Nanotechnology-based drug delivery systems releasing growth factors
Bionanofibers in drug delivery
Nanobiomaterials as gene delivery vehicles
Nanobiomaterials for drug delivery systems
