

CALL FOR PAPERS

ICEBEMCES 2021
Nov 01-02, 2021
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEBEMCES 2021 : International Conference on Evidence-Based Educational Methods and Computerized Educational Systems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Evidence-Based Educational Methods and Computerized Educational Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evidence-based educational methods
Behavior analysis and education
Principles of effective instruction
Precision teaching
Direct instruction
Programmed instruction
Personalized system of instruction
Learning methodologies
Education technologies

Computers and teaching machines
Effective use of computers in instruction
Effective instructional software
Adaptive computerized educational systems
Computers and adaptive instruction
Competent learner model
Morningside model of generative instruction
Developments in evidence-based education
