

CALL FOR PAPERS

ICMMSEA 2021
Nov 01-02, 2021
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMSEA 2021 : International Conference on Machinery, Materials Science and Engineering Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Machinery, Materials Science and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechanism theory & Application
Mechanism and Machine Composition
Principle
Mechanism Kinematics and Dynamics
Robot and Mechanics
Transmission Mechanism
Mechanical Testing Theory and
Technology
Mechanical Sensor Technology and
Testing Instrument
Mechanical Manufacturing Process
Monitoring and Control
Applied Machine
Mechanical Design and Application
Electroengineering
Electronics
Mechanical Engineering Testing

Machinery Manufacturing Technology
Mechanical transmission control
Mechanical Engineering
Facilities Planning and Logistics
System Application
The use of hydraulic technology
The use of hydraulic servo system
Electric drive control
Programmable Controller
Applications in Engineering
Automobile structure
Car Design
Automotive
Material Science
Functional Materials
