

CALL FOR PAPERS

ICST 2021
Nov 01-02, 2021
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICST 2021 : International Conference on Software Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Component-Based Software Engineering
Software Requirements Engineering
Software Architectures and Design
Information Engineering
Visual and Multimedia Computing
Economic and Financial Systems
Software Security
Modeling with UML
Reverse Engineering and Reengineering
Use Cases, Scenarios
Middleware Design Techniques
Software Economics and Cost Modeling
Programming Languages

Software Tools and Development environments
Software Policy and Ethics
Theory, Formal Methods and Tools
Design Patterns and Frameworks
Software Safety and Reliability
Web Engineering and Web-Based Applications
Software Process Models
Information Management Systems
Software Testing and Analysis
Software Components and Reuse
Case Studies
Object-Oriented Techniques
Project Management and Maintenance
