

CALL FOR PAPERS

ICFCRT 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFCRT 2021 : International Conference on Fine Chemicals and Recent Trends is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fine Chemicals and Recent Trends. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fine chemicals
Organic fine chemicals
Small molecules and big molecules
Technologies
Traditional chemical synthesis
Biotechnology
Fine chemicals manufacturing

Project management
Markets and market size
Pharmaceuticals
Agrochemicals
Heterogeneous catalysis for fine
chemicals
Process intensification in fine
chemicals
Recent trends and new developments
