

# CALL FOR PAPERS

**ICNCE 2021**  
**Dec 09-10, 2021**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNCE 2021 : International Conference on Nanotechnology in Civil Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanotechnology in Civil Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanotechnology in civil  
engineering  
Nanotechnology in construction  
Applications of nanotechnology in  
civil engineering  
Concrete and structural composites  
Carbon nano tubes  
Coatings and glass  
Nanosensors  
Bulk insulating materials

Plastics and plastic solar cells  
Building materials  
Construction industry  
Geotechnical engineering  
Material behavior  
Nanoscopy  
Transportation engineering  
Water purification
