

CALL FOR PAPERS

ICSAAM 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSAAM 2021 : International Conference on Sustainable Agriculture and Agricultural Mechanization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Agriculture and Agricultural Mechanization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable agriculture	Postharvest engineering and technology
Agricultural biotechnology regulations, rules and perceptions	Crop breeding, genetics and genomics
Agricultural mechanization and automation	Plant production technologies
Agricultural processing	Habitat reconstruction
Animal biotechnology	Ground water remediation
Food and agricultural waste management	Solid waste management
Agricultural biotechnology and developing countries	Waste minimization
Beverage and fermentation technology	Optimization of collection systems
Breeding and genetics	Recycling and reuse
Process control and integration	Waste valorization
Process modeling and simulation	Advanced treatment of water and secondary effluents
Safety and health in agriculture	Management of water treatment residuals
Soil and water engineering	Water resources and river basin management
