

CALL FOR PAPERS

ICSMPR 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMPR 2021 : International Conference on Software Maintenance Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Maintenance Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Software maintenance
- Importance of software maintenance
- Maintenance management
- Software maintenance planning
- Software maintenance processes
- Categories of maintenance
- Maintenance factors
- Types of maintenance
- Corrective maintenance
- Adaptive maintenance
- Perfective maintenance
- Preventive maintenance

- Cost of maintenance
- Real-world factors affecting maintenance cost
- Software-end factors affecting maintenance cost
- Identification and tracing
- Analysis
- Design
- Implementation
- System testing
- Acceptance testing
- Delivery
- Software re-engineering
