

CALL FOR PAPERS

ICABMC 2021
Dec 02-03, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABMC 2021 : International Conference on Advances in Bioorganic and Medicinal Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Bioorganic and Medicinal Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applications in organometallic,
inorganic, medicinal, and
biochemistry

Bioorganometallic Chemistry:
Applications in Drug Discovery,
Biocatalysis, and Imaging
Medicinal applications of
organometallic compounds and
bioconjugates
Medicinal bioorganometallic
chemistry, enzymes and
supramolecular systems, and
bioimaging
Medicinal Chemistry

Organometallic compounds in
biological systems and organisms
Organometallic drugs
Structural Biochemistry
Structural Diversity of
Organometallic Complexes
Structure and function of
metalloenzymes, organometallic
probes, and biosensors, and
organometallic bioconjugates
