

CALL FOR PAPERS

ICFE 2021
Dec 01-02, 2021
Auckland, New Zealand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFE 2021 : International Conference on Facilities Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Facilities Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Facilities engineering
Facilities engineering technology
Smart facilities engineering and services management
Facilities engineering buildings and structures
Plant engineering and applications

Operation management for efficiency maximization
Material analysis and labor management
Industrial engineering
Production maximization through facilities engineering
