

CALL FOR PAPERS

ICLGM 2021
Dec 01-02, 2021
Auckland, New Zealand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLGM 2021 : International Conference on Leukaemia Genomics and Metabolomics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Leukaemia Genomics and Metabolomics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Epidemiology of leukaemia
Various blood cancers and their management
Pathobiology of leukemia and its development
Diagnosis and screening of leukaemia
Myelodysplastic syndromes
Treatment of blood cancer
Clinical trials of leukaemia
Advanced therapies in leukaemia
Epidemiology of leukaemia

Traditional and alternative medicine for leukaemia
Anemia and leukaemia
Drugs for leukemia, lymphoma and myeloma
Leukemia immunology
leukaemia genomics and metabolomics
Hemato immunology and stem cell research
Bone marrow transplantation and surgery
Oncology
