

CALL FOR PAPERS

ICPD 2021
Dec 01-02, 2021
Auckland, New Zealand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPD 2021 : International Conference on Pathogenesis of Diabetes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pathogenesis of Diabetes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Physiology of the endocrine
pancreas

Alpha and Beta cells

Physiology of Diabetes Type 1

Physiology of Diabetes Type 2

Pathophysiology of hypoglycemia

Epidemiology and pathogenesis of
diabetes

Diabetes and metabolic syndrome

Diabetic myelopathy

Pathogenesis of diabetes

Recent advances in genetics of
diabetes

The Role of Incretins in Insulin
Secretion

Diabetes: Type 1 and Type 2

Gestational Hyperglycaemia and
Diabetes

Autoimmune Diabetes Mellitus

Latent autoimmune diabetes of
adults

Idiopathic

Diabetes in children

Prediabetes

Immune Intervention diabetes

Paediatric diabetes

Monogenic Forms of Diabetes

Neonatal Diabetes

Diabetes and Metabolism

Clinical Diabetes and Diagnostic
Approaches

Diabetes and its Complications

Diabetes Management
