

CALL FOR PAPERS

ICWETA 2021
Dec 01-02, 2021
Auckland, New Zealand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWETA 2021 : International Conference on Waste to Energy Technology and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Waste to Energy Technology and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Waste-to-energy technologies
Incineration methods
Waste-to-energy plants
Waste-to-energy applications
Energy recovery and environment
improvement
Global developments
Carbon dioxide emissions
Determination of the biomass
fraction
Thermal technologies
Thermal depolymerization

Plasma arc gasification or plasma
gasification process
Non-thermal technologies
Anaerobic digestion
Fermentation production
Mechanical biological treatment
Municipal solid waste,
sustainability and technology
Landfill gas process flows and
methane emissions
Government policies and
regulations
Waste-to-energy technologies and
project development
