

CALL FOR PAPERS

ICLMT 2021
Dec 16-17, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLMT 2021 : International Conference on Ladle Metallurgy and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ladle Metallurgy and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ladle metallurgy
Casting ladle
Transfer ladle
Treatment ladle
Injection technology
Thermodynamics
Fluid flow and mixing in ladle metallurgy systems
Convective mass transfer and kinetics

Model experiments on mass transfer in ladle metallurgy
Injection practice in secondary metallurgy of steel
Powder injection
Testing techniques
Testing technique for powder injection
Online analysis of stirring processes in ladle metallurgy
Integrated ladle metallurgy control
Economic considerations
