

CALL FOR PAPERS

ICEESET 2021
Dec 16-17, 2021
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEESET 2021 : International Conference on Electrochemical Energy Science, Engineering and Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrochemical Energy Science, Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrochemical energy science
Electrochemical energy storage
Fuel cells: PEMFC, DMFC, DEFC,
SOFC, etc.
Batteries and supercapacitors:
Li-ion, Li-S, Na-S, Na-ion,
metal-air, advanced lead-acid, flow
batteries, supercapacitors
Electrolysis and hydrogen:
electrolyzers,
photo-electrochemical cells, CO₂
electroreduction, advanced
chlor-alkali

Electrochemistry energy
fundamentals: electrochemical
theories, electrocatalysis,
electroanalysis,
electropolymerization,
electrosynthesis
Advanced electrochemical materials:
electrode/electrolyte materials
synthesis, characterization and
performance validation as well as
fundamental understanding
Electrochemical energy industry
Electrochemical energy production
related materials/devices/systems
