

CALL FOR PAPERS

ICSITM 2021
Dec 16-17, 2021
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSITM 2021 : International Conference on Synergistic Integration Technologies for Mechatronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Synergistic Integration Technologies for Mechatronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power Assist and Human Support
High-Precision Servo Systems
Wave System and Control
Advanced Control of Mobile Systems

Systems Energy Conversion and
Actuation
Nonlinear Control Systems
Mathematics and Physics in
Mechatronics Systems
