

# CALL FOR PAPERS

**ICCPSCP 2021**  
**Dec 13-14, 2021**  
**Cairo, Egypt**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPSCP 2021 : International Conference on Cyber-Physical Systems and Crop Production is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber-Physical Systems and Crop Production. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent cyber-physical systems  
for agricultural applications  
Cyber-physical systems  
Agricultural robotics  
Artificial intelligence  
Image processing  
Plant phenomics

Crop production  
Smart monitoring of crop  
production  
Smart field monitoring  
Precision livestock farming  
Expert systems for animal  
production
