

# CALL FOR PAPERS

**ICEPOM 2021**  
**Dec 20-21, 2021**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPOM 2021 : International Conference on Electronic Processes in Organic Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronic Processes in Organic Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronic Processes in Organic Materials

Spin and Excitons in Organic Semiconductors and Devices

Carrier Transport in Organic Materials and Devices

Organic Bioelectronics

Metal Halide Perovskites: Carrier Transport and Photophysics

Interfaces of Organic

Semiconductors

Charge Separation in Organic

Photovoltaic Devices

New Organic Electronic Materials

Self-Assembly and Structure

Novel Aspects of Chemical Doping in

Organic Semiconductors and Devices
