

CALL FOR PAPERS

ICEPA 2021
Dec 06-07, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPA 2021 : International Conference on Environmental Pollution and Agriculture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Pollution and Agriculture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water quality and public health
Purification of drinking-water supplies
Treatment, disposal and discharge of wastewater
New wastewater treatment technologies
Methods of monitoring water quality
Modeling and measuring of water pollution
New water purification technologies
Ground water pollution control
Water resources and quality assessment
Water resource protection and sustainable use
Hydrobiology and water pollution
Air pollution and public health
Effects of air pollution on public health

Sources of air pollution
Air pollution monitoring and modeling
Air pollution prevention and control
Urban and indoor air pollution and control
Air quality measurement and management
Global climate change and air pollution
Chemical pollutants and its effects on health
Land pollution and its effects on health
Radiation safety in atomic industry
Food and drug safety control
Hazardous materials management
Solid waste management
Environmental toxicology
