

CALL FOR PAPERS

ICABR 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABR 2021 : International Conference on Advances in Behavioral Robotics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Behavioral Robotics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Behavior-based robotics
Behavioral robotics
Behavior-based robots
Machine intelligence
Behavior-based robotics and
classical artificial intelligence
Behaviors and actions

Intelligent behavior and reasoning
Generating behaviors and behavioral
architectures
Braitenberg vehicles
Hand-coded behaviors
Embodied cognitive science
Hierarchical control systems
