

# CALL FOR PAPERS

**ICFCRT 2021**  
**Dec 09-10, 2021**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFCRT 2021 : International Conference on Fine Chemicals and Recent Trends is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fine Chemicals and Recent Trends. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fine chemicals  
Organic fine chemicals  
Small molecules and big molecules  
Technologies  
Traditional chemical synthesis  
Biotechnology  
Fine chemicals manufacturing

Project management  
Markets and market size  
Pharmaceuticals  
Agrochemicals  
Heterogeneous catalysis for fine  
chemicals  
Process intensification in fine  
chemicals  
Recent trends and new developments
