

CALL FOR PAPERS

ICFT 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFT 2021 : International Conference on Fabric Testing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fabric Testing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fabric testing	Testing intelligent textiles
Fabric testing methods	Flammability testing of fabrics
Fabric quality control, analysis and management	Fabric quality standards and testing procedures
Sampling and statistical analysis in textile testing	Testing and quality management
Fabric composition testing	Physical and mechanical properties of fabric materials
Physical and mechanical testing textiles	Structural mechanics of fibers, yarns, and fabrics
Fabric chemical testing	Quality and quality control in fabric industry
Fabric appearance testing	Quality parameters of woven, knitted and non-woven fabrics
Fabric permeability testing	Garment manufacturing process
Dyeing and coloring tests for fabrics
