

CALL FOR PAPERS

ICGMP 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGMP 2021 : International Conference on Geotechnical Mapping and Procedures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geotechnical Mapping and Procedures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geotechnical mapping
Geological and geotechnical mapping procedures
Geotechnical mapping of soils and sedimentary rocks
Geotechnical mapping evaluation of rock groynes
GIS and geotechnical mapping of expansive soil
Mapping of quick clay formations
Geotechnical and geophysical methods
Computerized automatic geotechnical mapping
Photogrammetry for structural mapping in mining

Round mapping
Systematic mapping
Highlands highway geotechnical mapping
Geo-hazard mapping and mitigation
Geohazards and disaster mitigation
Geotechnical mapping of discontinuities
Geomechanical testing
Slope stability analysis
Risk evaluation
