

# CALL FOR PAPERS

**ICILP 2021**  
**Dec 09-10, 2021**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICILP 2021 : International Conference on Innovative Landscape Planning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Innovative Landscape Planning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architecture history, theory and culture  
Landscape performance  
Landscape planning and ecology  
Landscape form and function  
Landscape ecology, natural drainage systems and constructed wetlands

Sustainable coastal margins, wildlife habitat conservation, green ways and other topics related to planning and characterizing the environment  
People-environment relationships  
Innovative ways to design, build, and/or restore, urban, suburban and rural environments that address ecological, social and economic issues associated with sustainability  
Design of pedestrian space and alternative transportation, sustainable urbanism, active living by design and the arrangement of urban space and place
