

CALL FOR PAPERS

ICMCTA 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCTA 2021 : International Conference on Microbial Control Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbial Control Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food borne pathogens and spoilage
microorganisms detection,
enumeration and identification
Advances in biofilm control
Biocontrol strategies
Experimental designs for microbial
food spoilage

Food safety and food problem
detection methods
Experimental design
Biocontrol and biopreservation
