

CALL FOR PAPERS

ICMMCBS 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMCBS 2021 : International Conference on Mathematical Modeling of Complex Biological Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mathematical Modeling of Complex Biological Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioengineering
Biomimetics
Complex biological systems
Complex human problems
Natural selection
Biological solutions at macro and nanoscales
Devices
Medical equipment
Therapeutic medical devices
Biological engineering
Biomedical engineering
Biological systems engineering
Analytical and synthetic methodologies

Biotechnology
Applications of organisms
Gene regulation, expression, identification and network
Structural, functional and comparative genomics
Structures and functions of living organisms
Engineering and medicine
Diagnosis, monitoring, and therapy
Health care treatment
Biocompatible prostheses
Various diagnostic
Micro-implants
Common imaging equipment
Clinical engineering
