

CALL FOR PAPERS

ICMPMSM 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPMSM 2021 : International Conference on Monitoring of Permanent Magnet Synchronous Machines is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Monitoring of Permanent Magnet Synchronous Machines. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control techniques for PMSMs
Impact of machine design on PMSMs
control performance
Implementation issues of PMSMs
control for real products
Emerging control techniques for
PMSMs
States estimation for motion
control of PMSMs

Condition monitoring, fault
diagnosis, and prognosis
Sensorless control of PMSM
Self-commissioning
Machine design for sensorless
control
Thermal, materials, and efficiency
Issues in PMSMs
