CALL FOR PAPERS

ICPL 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPL 2021 : International Conference on Perceptron Learning is
the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Perceptron Learning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Perceptron
Perceptron model
Perceptron learning
Single layer perceptrons
Multilayer perceptrons
Machine learning

Mathematical view of perceptrons
Backpropagation algorithm
Practical considerations of working with multilayer perceptrons
Boolean functions and perceptrons
Artificial neural networks
Learning algorithms for neural networks
