

CALL FOR PAPERS

ICSGGSTF 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSGGSTF 2021 : International Conference on Second Generation General System Theory and Forecast is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Second Generation General System Theory and Forecast. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Automata	Irreversibility
Change	Meta-structures
Coherence	Non-linearity
Computation	Optimisation
Emergence	Planning
Entanglement	Power laws
Entropy	Predictive, preventive, personalized and participatory medicine
Forecast	Quantum-like systems
Fuzziness	Probability
Growth	Scale invariance
Hypercomputation	Self-organisation
Incompleteness/completeness	Uncertainty
Information	Uniqueness
