

CALL FOR PAPERS

ICVPCVEM 2021
Dec 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVPCVEM 2021 : International Conference on Visual Psychophysics, Colour Vision and Eye Movements is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Visual Psychophysics, Colour Vision and Eye Movements. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Visual psychophysics
Colour vision
Colour mixture
Dark and light adaptation
Luminance difference thresholds
Signal detection theory

Visual perimetry
Simultaneous brightness induction
Visual acuity and spatial
modulation thresholds
Metacontrast
Eye movements and perceived visual
direction
