

CALL FOR PAPERS

ICHEMT 2021
Dec 13-14, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHEMT 2021 : International Conference on Healthcare Engineering and Medical Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Healthcare Engineering and Medical Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Healthcare engineering
Health engineering
Hospital medical technology management
Hospital and healthcare security
Healthcare systems optimization
Healthcare delivery, measurement and modeling
Statistical and quantitative models
Healthcare systems
Healthcare delivery systems
Healthcare systems modeling
Medical information
Healthcare industry
Health information systems

Production and health care system
Health care management operations
Assessment of medical technologies
Patient-centered systems
Roles in healthcare products, systems and delivery
Engineering design and product development
Regulatory science
Risk science and failure analysis
Economic analysis, reimbursement/payment models, and value engineering
Information technology and software
Public policy and management science
Other applications: beyond healthcare-oriented areas
General consumer product safety
