**Dec 13-14, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIECE 2021 : International Conference on Information, Electronic and Communications Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Information, Electronic and Communications Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ad-hoc, Sensor and Mesh Networking  
Broadband Access  
Communication and Information  
System Security  
Communication and Information  
Theory  
Communication QoS, Reliability and  
Modelling  
Communication Theory  
Energy Efficient Networking  
Internet Services and Applications  
Information Systems Engineering
