

# CALL FOR PAPERS

**ICETIME 2021**  
**Dec 02-03, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETIME 2021 : International Conference on Emerging Trends in Industrial and Mechanical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Emerging Trends in Industrial and Mechanical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial Engineering  
Advanced Product Design and  
Development  
Artificial Intelligence and  
Knowledge  
CRM, MRP and ERP  
Decision Analysis/Decision Theory  
Engineering Management  
Ergonomics and Its Applications  
Human Factors Engineering  
Logistics and Supply Chain  
Management  
Multidisciplinary Product  
Development  
Operations Research and  
Optimization  
Plant Layout and Facility Planning  
Product Lifecycle Management

Production Planning and Control  
Productivity and Benchmarking  
Project and Technology Management  
Quality Control and TQM  
Systems Modelling and Simulation  
Work Space Design and Equipment  
Management  
Work Study  
Advance Manufacturing Techniques  
Automation, Mechatronics and  
Robotics  
CAD/CAM/CIM  
Concurrent Engineering  
FMS and NC/CNC Machining
