

CALL FOR PAPERS

ICSPT 2021
Dec 02-03, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPT 2021 : International Conference on Smart Protective Textiles is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Protective Textiles. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart materials and technologies
Smart textiles for protection
Smart surface treatments for textiles for protection
Nanomaterials in smart protective clothing
Smart barrier membranes for protective clothing
Sensors, actuators and computing systems for smart textiles for protection
Biomimetic approaches to the design of smart textiles for protection

Applications of smart textiles for protection
Smart technology for personal protective equipment and clothing
Smart protective textiles for older people
Smart high-performance textiles for protection in construction and geotechnical applications
Smart textiles for the protection of armored vehicles
Protective clothing for firefighters and rescue workers
Advances in chemical and biological protective clothing
