

CALL FOR PAPERS

ICAEPM 2022
Jan 21-22, 2022
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEPM 2022 : International Conference on Agricultural Engineering and Pest Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Engineering and Pest Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural engineering
Abiotic disorders in plants
Plant protection science
Fertilizers and pesticides
Ecologically based pest management
Insect pest control management
Agricultural and silvicultural pest management
Urban pest management

Control methods and alternatives
Zoonoses and parasites
Integrated crop management
Drones in agriculture
Invasive vertebrates
Biological control of rodent pests
Behaviour of pesticides in air, soil and water
Big data and data mining for agricultural information systems
