

# CALL FOR PAPERS

**ICDBAM 2022**  
**Jan 18-19, 2022**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDBAM 2022 : International Conference on Driver Behavior Analysis and Modeling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Driver Behavior Analysis and Modeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Driver behavior analysis  
Driver behavior modeling  
Personality, psychology and driver behavior  
Driver behavior analysis for safe driving  
Driver behavior analysis and prediction models  
Driver behavior and human factors  
Driver perception and modeling

Driver distraction  
Impaired driving performance  
Infrastructure design  
Innovative data collection and analyses  
Design of simulator scenarios  
Simulator sickness
