

CALL FOR PAPERS

ICADSG 2022
Jan 28-29, 2022
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADSG 2022 : International Conference on Advanced Differential and Symplectic Geometry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Differential and Symplectic Geometry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applications of Differential
Geometry
Bundles and connections
Cartan Equations
Complex and Kähler geometry
Connection theory
Contact geometry
Covariant Derivative
CR Geometry
Curvature
Curves in R^3
Curvilinear Coordinates
Differential Forms
Differential Topology

Exterior Derivatives
Finsler Geometry
Frames
Fundamental Theorem of Curves
Gauge Theory
General Relativity
Intrinsic versus Extrinsic
Lie Groups
Lie Theory of Loops
Manifolds
Pseudo-Riemannian Geometry
Riemannian Geometry
Riemannian, Lorentzian and
Finslerian Geometry
