

CALL FOR PAPERS

ICASMACE 2022
Jan 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASMACE 2022 : International Conference on Applications of Shape Memory Alloys in Civil Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applications of Shape Memory Alloys in Civil Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Shape memory alloys and civil engineering

Applications of shape memory alloys in civil engineering structures

Structural engineering and shape memory alloys

The future of shape memory alloys

The impacts of shape memory alloys on civil engineering applications

Ferromagnetic shape memory alloys

Itinerant electron magnetism

Pre-martensite transformation

Superelasticity

Magneto-caloric effect

Thin shape memory alloy film

Magnetic field; stress

Spectroscopy
