

CALL FOR PAPERS

ICCSP 2022
Jan 18-19, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSP 2022 : International Conference on Cyber Security and Privacy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber Security and Privacy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Infrastructure Security
Access control
Authorization, identification and authentication
Accountability and anonymity
Biometric authentication
Big Data and Security
Censorship and censorship-resistance
Cloud security
Cryptography and key algorithms
Data-at-rest and Data-on-the-Fly Security
Distributed systems security
Embedded systems security and forensics
Encryption algorithms and analysis

Hardware, application, and system security
Information integrity, assurance and trustworthy
Intrusion detection, traffic analysis and decision making of security
Language-based security
Location Privacy and Exposure
Machine Learning and Security
Malware analysis and protection
Mobile security
Network security and malware
Networking protocols and security trace back
Privacy in pervasive sensing
Privacy in social media
Privacy-preserving systems
