

CALL FOR PAPERS

ICAFP 2022
Jan 28-29, 2022
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFP 2022 : International Conference on Advanced Food Packaging is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Food Packaging. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Trends in food science and nutrition

Global and local analyses of food security and its drivers

Food components, properties and reactions

Food and agricultural technology and innovations

Next generation technology and metagenomics in food and health

Food and beverage industries and industrial applications

Food, beverage marketing and policy

Beverage quality analysis and effect

Nutritional, dietary deficiencies and management

Genetically modified foods

Food preservation and packaging

Different kinds of foods to be preserved and packed

Scientific principles and traditional methods of food preservation

Industrial and modern techniques of food preservation

New trends in the technology of food

Food safety standards, regulations and their impact

Food packaging, pride and promise

Food packaging materials and intelligent packaging
