

# CALL FOR PAPERS

**ICFSPT 2022**  
**Jan 28-29, 2022**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFSPT 2022 : International Conference on Food Safety and Packaging Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Safety and Packaging Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Trends in food science and nutrition  
Global and local analyses of food security and its drivers  
Food components, properties and reactions  
Food and agricultural technology and innovations  
Next generation technology and metagenomics in food and health  
Food and beverage industries and industrial applications  
Food, beverage marketing and policy  
Beverage quality analysis and effect  
Nutritional, dietary deficiencies and management  
Genetically modified foods

Food preservation and packaging  
Different kinds of foods to be preserved and packed  
Scientific principles and traditional methods of food preservation  
Industrial and modern techniques of food preservation  
New trends in the technology of food  
Food safety standards, regulations and their impact  
Food packaging, pride and promise  
Food packaging materials and intelligent packaging  
Advanced packaging systems and machinery  
Challenges in food packaging
