

# CALL FOR PAPERS

**ICPCFQ 2022**  
**Jan 28-29, 2022**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPCFQ 2022 : International Conference on Phenolic Compounds and Food Quality is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Phenolic Compounds and Food Quality. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advances in chemical analysis of polyphenols and food  
Influence of food processing, technology, and biotechnology on polyphenolic composition and food quality  
Impact of polyphenols on sensory perception: color, appearance, texture, and flavor

Role of polyphenols in food nutrition and health  
Food waste valorization: use of waste of food industry as polyphenols source  
Polyphenols and other food components interactions: impact on bioavailability and organoleptic properties
