

CALL FOR PAPERS

ICFNLS 2022
Jan 18-19, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFNLS 2022 : International Conference on Food, Nutrition and Life Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food, Nutrition and Life Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food, Nutrition and Life Science
Animal and in vitro models with clear relevance for human nutrition
Associations and effects of foods and nutrients on health
Diabetes
Dietary patterns and health
Digestion and absorption
Food and Nutrition Education
Food and Nutritional Sciences
Food intolerance and allergy
Health claims on foods
Metabolomics, nutrient and gene interactions
Methodologic approaches or techniques in biochemistry, immunology, molecular biology, toxicology, and physiology
Molecular nutrition

Nutrient drug interactions
Nutrient requirements in health and disease
Nutrition and aging
Nutrition and cancer
Nutrition and cognitive functions
Nutrition and Economics
Nutrition and the Environment
Nutrition in developing countries
Nutritional anthropology and epidemiology
Nutritional biochemistry and metabolism
Nutritional effects of food composition and processing
Obesity
The impact of nutrient intake on disease response, work performance and behavior, the consequences of nutritional deficiency on growth and development, endocrine and nervous systems, and immunity
